Food supplements should not be used as a substitute for a varied diet. Do not exceed recommended daily amount. Store and keep out of reach of young children. Omega-3 Fatty Acids may have significant developmental benefits; however, supplementation with EPA Plus during pregnancy should not be considered prior to the second trimester. Docosahexaenoic acid (DHA) maternal intake contributes to the normal brain development of the foetus and breastfed infants. As with all supplements, please consult your physician to discuss potential benefits and risks prior to taking if you are pregnant or attempting to become pregnant, breast-feeding, under a doctor's care or taking prescription medication.

Contains the following animal ingredient: Fish Oil.

This product was not tested on animals.

**Store in a dry place at room temperature. (15-25 °C / 59-77 °F)**
