

LIFEPLUS EUROPE LIMITED

GENDER PAY GAP REPORT

Gender Pay Gap legislation (developed by the Government Equalities Office) introduced in April 2017 requires all employers of 250 or more employees to publish their gender pay gap for workers as at 5th April each year. The results for the year to 5th April 2023 are listed below:

The table below shows our pay gap which, as at that date, reports there was a 12% hourly pay gap in favour of the male workforce.

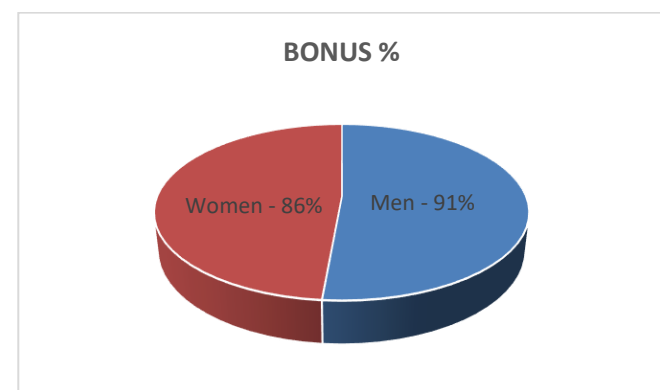

Mean Gender Pay Gap in hourly pay	12%
Median Gender Pay Gap in hourly pay	5%
Difference in mean bonus payments	41.1%
Difference in median bonus payments	16.7%

At Lifeplus Europe there is currently a 12% gender pay gap favouring men, which is from the upper quartile of salaries. There is a minimal gender pay gap in the other quartiles. We will continue to ensure our recruitment processes and ways of working encourage women into manager roles at Lifeplus Europe.

BONUS PAYMENTS

The data shows that 91% of men and 86% of women were paid a bonus in the 12 month period to 5th April 2023. The mean difference between men and women was 41.1% in favour of the male workforce and the median difference was 16.7% in favour of the male workforce. Our pay review procedure ensures that bonus payments are made across all departments in line with specific criteria.

PAY QUARTILES

At Lifeplus we have a good balance between male and female colleagues in all of the pay quartiles.
