Food supplements should not be used as a substitute for a varied diet. Do not exceed recommended daily amount. Store and keep out of reach of young children. Omega-3 Fatty Acids may have significant developmental benefits, however supplementation with Vegan OmeGold® during pregnancy should not be considered prior to the second trimester. As with all supplements, please consult your physician prior to taking if you are pregnant or attempting to become pregnant, breast-feeding, under a doctor's care or taking prescription medication.

Contains Omega-3 Algal Oil Concentrate providing a rich, high-quality source of the Omega-3 polyunsaturates EPA (Eicosapentaenoic Acid, 125mg per capsule) and DHA (Docosahexaenoic Acid, 250 mg per capsule). Docosahexaenoic acid (DHA) maternal intake contributes to the normal development of the eye and the normal brain development of the foetus and breast-fed infants. The beneficial effect is obtained with a daily intake of 200 mg of DHA in addition to the recommended daily intake for omega-3 fatty acids for adults (250 mg DHA and EPA).
